On August 21, from 3:30 – 5:00 pm, five workshops will be offered to enhance skills in practice and policy that support population child and youth mental health *through the life course*.

#### **CALL FOR ABSTRACTS**

Building on evidence, five workshops will be offered to enhance skills in the use of tools and methods for practice and policy that support population child and youth mental health promotion. We are seeking workshops that develop skills to:

1. Create supportive environments that protect people (children, caregivers, teachers) from known risk factors and provide a positive, mentally healthy situation in homes, schools, workplace, etc.

or

2. Provide resources and programs that enable people — especially children — to become resilient, with the skills they need to manage life's ups and downs

Researchers, educators and/or community and workplace leaders, as well as youth leaders and changemakers are invited to submit.

The workshops must be interactive with attendees taking away new skills. Workshops will be scheduled for 75 minutes with 15 minutes reflection to close the session.

#### **PROCESS OF SELECTION**

We ask that you send us an abstract describing your workshop using the online template that is provided with this call. **The deadline for receiving an abstract is Monday, May 21, 2018 at 5:00 PM Atlantic time.**

A panel of reviewers will review the abstracts and select projects that:

- relate to the theme of child and youth mental health;

## **WRITING YOUR ABSTRACT**

<http://www.thequaich.pe.ca/UltimateSurvey/takeSurvey.asp?surveyID=439>

You will be asked to complete a template that will include:

- a description of your workshop

- what others will learn from your workshop

*Helpful hint: Try writing your workshop description in a Word or WordPerfect document, then cut and paste it into the template (some answers have a limit on the number of words).*
